

I-Deal Trade

Order management for smart players

I-Deal Trade allows you to use the same ordering routines for all your suppliers. Simply install the product, then all your incoming price and product lists will look exactly the way you want them – no matter how they looked when your supplier sent them. All you have to do is start ordering!

I-Deal Trade

I-Deal Trade is the generic name for VFM's purchasing and sales solutions for the food and retail trade. Our smart services, which are updated regularly, facilitate communication and day to day business between suppliers and buyers. Some of our services have been specially developed to make life easier for wholesalers.

Streamline your order management

As a wholesaler, you do business day in, day out with lots of different suppliers both in Sweden and overseas. I-Deal Trade allows you to process all your suppliers' price and product lists so that you receive them with the exact layout, listing order and notes to suit your needs. Not only will this streamline your ordering, it'll also make it easier for you to review suppliers' prices and receive correct tenders.

Nothing demanded of your suppliers

I-Deal Trade makes hardly any demands of your suppliers, and they won't have to change any of the procedures they're used to working with. I-Deal Trade can handle most kinds of input data – just one simple file is all that's required.

Get started cheaply and quickly

It's cheap and easy to start using I-Deal Trade. It's incredibly quick to install – you can have new, more efficient ordering routines in place in just a day or so.

Supplementing your existing business system

Extensive – and expensive – investments won't be needed. The flexible technology used for I-Deal Trade can be integrated with all business systems. At VFM, we'll make sure that our solution can talk to your specific system.

We take overall responsibility and can customise your solution

I-Deal Trade offers very reliable and secure hosting. And your agreement will always include overall technical responsibility provided by VFM. We'll run your system, maintain it and handle its security. And because VFM develops flexible technical solutions, there's always the option of running pilot projects and supplying custom solutions. Give us a call and tell us what you need.

Streamline your ordering routines with I-Deal Trade as early as next week! Welcome to VFM.
